

EXERCISE 7 - CREATIVE GREEN LIVING FOR YOUTH

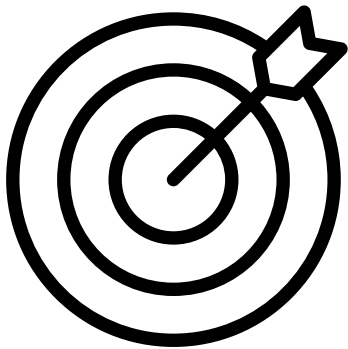

Co-funded by
the European Union

GREEN
INDUSTRY
FOUNDATION

Goal of the exercise

The aim of this exercise is to help young people understand how to incorporate green principles into their daily lives through simple, creative actions that support sustainable development.

Find a green space in your surroundings (such as a balcony, room, yard, etc.).

Come up with three ways you can modify this space to make it more environmentally friendly.

|--|--|--|
| | | |
|--|--|--|

Create an action plan outlining what you would like to change or implement to make your space greener.

A large, empty rectangular box with a thin black border, intended for the user to write their action plan.

After completing the project, share your experience with others – for example, through photos, sketches, or a written description.

SUPPORTING QUESTIONS

What elements of your daily life could you make more eco-friendly?

What items that you usually throw away could you reuse?

What benefits do energy-saving and recycling bring to your daily life?

The image below provides examples of inspiration for carrying out this project, such as creating your own green spaces using recycling and creative ideas.
