

Exercise 4

PRACTICE CREATIVITY

Our childhood days are behind us, but nothing prevents us from drawing to practice creativity.

Use a sheet of paper and a pencil for this.

Sketch at least 10 circles (you can also print them) and try to draw everything you can think of using circles in the shortest possible time, e.g. 1 minute. It can be a fruit, a ball or anything else. It is important that these objects are recognizable.

It is recommended to draw 30 such circles and count down 3 minutes to complete this task.

SEE THE EXAMPLE BELOW:
