

# Task 3

## RECOMMENDATIONS FOR DEVELOPING ORIGINALITY OF THINKING

You can influence your thinking, making it original and unlike other people's thinking, by using the following tips:

- Get rid of any preconceptions in your mind.
- Develop your creativity.
- Strive to continuous recognition of new information.
- Work on your productivity (apply the above recommendations).
- Develop associative thinking.
- Talk to interesting and unusual people.
- Always look for several solutions to problems and situations.
- Solve special tasks using non-standard thinking systematically.
- Study biographies and autobiographies of famous people.
- Use the method of brainstorming in your activities.
