TASK 3

DEVELOPING STRATEGIES TO BUILD TRUST IN DISTRIBUTED TEAMS

Your task is to develop a strategy for building trust in distributed teams in our company. Focus on the importance of trust in effective collaboration and identify the challenges of building trust across distance. Suggest specific actions that can help strengthen trust between team members, such as regular video meetings, information sharing and mutual assistance.

Also mention the importance of clearly communicating expectations and goals, and promoting an open and transparent organisational culture. Make your recommendations to the company's management to help build trust in distributed teams.
