

Moduł 10: Work in a dispersed team using a cloud environment

PRE-TEST

Working in a dispersed team using a cloud environment greatly facilitates the organization of work and allows for the free flow of information between employees.

Listed below are various behaviors or actions. Please assess whether you would handle each of them.

If there are activities that you have never done, give an answer – imagine yourself in a situation that requires such an action and assess how well you would cope with it.

Try to answer objectively and honestly.

Next to it are the answers "YES" or "NO" With each sentence you should surround the answer with a circle.

One answer shall be given for each statement.

No	Statement	Yes	No
1	I can name at least two cloud service providers	Yes	No
2	I use a cloud environment in my work	Yes	No
3	In my team, we often work on project management tools	Yes	No
4	I can name at least one time management program	Yes	No
5	I can name at least 2 differences between the platform and the application	Yes	No
6	I know what digital space is for	Yes	No
7	I know what applications and platforms are used to store data in the cloud	Yes	No
8	I know what data security looks like on the cloud	Yes	No
9	I know how to train employees in using the cloud environment in remote work	Yes	No

If you answered "YES" to at least 7 questions, it means that you know the cloud environment very well. Time management platforms and applications are familiar to you and you can implement them in your remote work. The subject of security and digital space is your daily bread. However, despite the vast knowledge, the subject of the cloud environment in remote work is dynamically developing, so it is sometimes worth getting new information about new products introduced to the market.
